

22-24 February 2012

Freiburg, Germany

International Meeting on

RARE DISEASES - Mechanisms and New Therapeutic Approaches

Wednesday, February 22

- 18:00 Interdisciplinary Session –
FCRD Presents its Activities
- 20:00 Get-Together

Thursday, February 23

- 13:00 **Opening Ceremony**
- Session 1 **New Technologies – New Disease Causes**
- 13:15 Friedhelm Hildebrandt
*Whole Exome Sequencing Reveals
Mechanisms of Rare Childhood Diseases*
- 13:50 Matt Warman
*Does Increasing Bone Mass also Increase Bone
Strength in Mouse Models of
Osteogenesis Imperfecta*
- 14:30 Bodo Grimbacher
*Mendelian Traits in the Susceptibility to
Fungal Infections*
- 15:00 Coffee Break and Poster Session 1
- Session 2 **Molecular Diseases Mechanisms and
Therapies**
- 16:00 Eli Sprecher
*(Rare)²: The Genetics of Uncommon Skin
Disorders in Population Isolates*
- 16:40 Jakub Tolar
*Stem Cell Transplantation for the Therapy
of Severe Epidermolysis Bullosa*
- 17:20 Nurten Akarsu
*Molecular Genetics of
Popliteal Pterygium Syndrome*
- 17:40 Marcus Mall
*Cystic Fibrosis: Emerging Therapies Targeting
the Basis Defect*
- 18:00 **Special Lecture**
Norbert Paul
*Ethical Dimensions of Treating a Rare Case
of Pompe Disease*
- 19:00 **Conference Dinner**

Friday, February 24

- Session 3 **Gene and Protein Therapies**
- 08:30 Carsten Bönemann
*New Therapeutic Strategies for Muscular
Dystrophies*
- 09:10 Toni Cathomen
*Targeted Genome Editing as a Novel Therapeutic
Approach to Tackle Immune Deficiencies*
- 09:50 Short Talks
- 10:00 Coffee Break
- Session 4 **Molecular Diseases Mechanisms**
- 10:30 Christian Kratz
Monogenic and Complex Cancer Syndromes
- 11:10 Bernd Wollnik
*Beyond FGF-Signaling: Novel Molecular Findings
in Patients with Syndromic Craniosynostosis*
- 11:40 Short Talks
- 12:30 Lunch and Poster Session 2
- Session 5 **Compensational Therapy Strategies**
- 14:00 William Horton
*Insights into the Molecular Pathogenesis
and Treatment of Achondroplasia*
- 14:40 Short Talks
- 16:00 Coffee Break
- Session 6 **New Genes and Molecular Diseases
Mechanisms**
- 16:30 Stephan Ehl
*When the Immune System Runs Amok -
Hemophagocytic Lymphohistiocytosis*
- 17:10 Maximilian Muenke
*Bringing Rare Diseases to the Masses:
Why Understanding Orphan Disorders Matters
to (Almost) Everyone*
- 18:00 Informal Get-Together

For further information and abstract submission please visit our website
